**Attachments:** 25b\_label.guidance\_12.16.21.pdf; 25(b) Active ingredients.pdf; 25(b) Inert Ingredients.pdf

Katie,

Attached is a product label guidance for 25(b) products, a list of active Ingredients, and inert ingredients that can be used for 25(b) products. In regards to the email I sent back on June 16 the updated/revised label submitted into the KRS system(8.12.21) was not approved based on the label was missing "Signal Word" and the inert ingredient "sucrose" is not on the eligible list. In regards to renewals for South Carolina, you will have no issues. I however will not approve a revised/updated label for "Spartan Mosquito Eradicator" till those requirements are met.

Regards,  
Alan

**Subject:** Fwd: Document Requires Attention

Good morning, Alan:

I hope this email finds you well. Just wanted to follow up on my previous email from June regarding this matter.

We are getting ready to submit renewals for South Carolina within the next few days, so just wanted to resolve any potential issues beforehand if possible.

Thanks,  
Katie
